The gauge theory of dislocations: A nonuniformly moving ...
Up to now, no solution for a nonuniformly moving dislocation has been given in the dislocation gauge theory or another generalized theory of elasticity. The aim of this Letter is the examination of a nonuniformly moving screw dislocation, for the first time, in the framework of dislocation gauge theory.

In this theory, both the force and pseudomoment stresses are asymmetric. The theory possesses four characteristic lengths 1, 2, 3 and 4, which are given explicitly. We first derive the three-dimensional Green tensor of the master equation for the force stresses in the translational gauge theory of dislocations.
