[Acne - Treatment - NHS.UK](#)

Treatment. Treatment for acne depends on how severe it is. It can take several months of treatment before acne symptoms improve. If you just have a few blackheads, whiteheads and spots, you should be able to treat them successfully with over-the-counter gels or creams (topical treatments) that contain benzoyl peroxide.

[From WebMD: Teen Acne and Prescription Treatments](#)

Stop using other acne treatments. If a doctor has prescribed an acne treatment, don't also use other treatments or home remedies. They're unlikely to help and they could even make the acne worse. Stick with it. Acne treatment won't work immediately. It can take six to eight weeks before you see some benefit.
