[Applied Inverse Problems Conference](#) Inverse problems bring mathematics and computational science to the heart of very active multidisciplinary research that arises from a large variety of applications, such as medical imaging, imaging in geophysics and astrophysics, nondestructive testing, remote sensing, image processing, and data mining.

["AIP 2015 - Applied Inverse Problems Conference"](#)

About Applied Inverse Problems conference Inverse problems arise from the need to interpret indirect measurements. Such situations are common in many application areas such as medical imaging, nondestructive testing, underground prospecting, astronomical imaging, remote sensing, image processing, and data mining.
