Politics - Wikipedia

Global politics include different practices of political globalization in relation to questions of social power, from global patterns of governance to issues of globalizing conflict. The 20th century witnessed the outcome of two world wars and not only the rise and fall of the Third Reich but also the rise and relative fall of communism.

The development of the atomic bomb gave the United

Postdevelopment theory - Wikipedia

Postdevelopment theory (also post-development or anti-development or development criticism) holds that the whole concept and practice of development is a reflection of Western-Northern hegemony over the rest of the world.
