Elements In Fracture Mechanics
Simulating Fuzzy Systems
Rational Series And Their Languages
Automated Scheduling And Planning
International Conference On Advancements Of Medicine And Health Care Through Technology 5th 7th June 2014 Clujnapoca Romania
The Quality Of Life In Confucian Asia
Computational Earthquake Science Part I
Transformation Of Social Security
Optimal Domain And Integral Extension Of Operators
Banach Algebras With Symbol And Singular Integral Operators
Spacefilling Curves
Lipidmediated Protein Signaling
Advanced Methods Of Solid Oxide Fuel Cell Modeling
Topological Quantum Field Theory And Four Manifolds
Political Economies Of Landscape Change
The Emerging Physics Of Consciousness
Oxygen Transport To Tissue
Xiii Denumerable Markov Chains
Soft Computing In Green And Renewable Energy Systems
Meshfree Methods For Partial Differential Equations In
Spacecraft Attitude Determination And Control
Kinins Iv Strange Phenomena In Convex And Discrete Geometry
Analysis And Computation Of Microstructure In Finite Plasticity
A Glimpse At Hilbert Space Operators
Hybrid Selforganizing Modeling Systems
Basics Of Applied Stochastic Processes
Hypervalent Iodine Chemistry
Success In Evolutionary Computation
Prostate Cancer Prevention
Researching Learning In Virtual Worlds
Formal Description Techniques Vii
Transport Phenomena In Strongly Correlated Fermi Liquids
Security And Privacy In User Modeling
Trust Management Vii
Unmasking School Leadership
Kinins V
Nasas Moon Program
Management Of Multimedia Networks And Services
Formal Methods For Distributed System Development
Problems In Algebraic Number Theory
Surgical Management Of Congestive Heart Failure
Electronpositron Interactions
Design Analysis And Test Of Logic Circuits Under Uncertainty
Supply Chain Analysis
