The 9.9 hp carburetor's INTERNAL THROAT is .625 dia., 15 hp internal throat is .875 dia. up until late 1987 when they went to a plastic topped carburetor. NOTE this is not measured from either the front or back but the internal throat that you can see on the LH photo below. The outlet or rear throat dia. is the same on both to match the manifold port dia.

OEM Evinrude Johnson BRP Outboard Carburetor Kit 398453

The motor will not ever idle right without this seal. Double check your work and pay close attention to detail. The install is reverse of the removal. I would recommend this product highly to owners of the 15hp Johnson and Evinrude. I doubt if it will work on the 9.9 hp as it is a different carb with different dimensions.
