[IRB 6700 - ABB-Industrieroboter - berblick ABB ...](#)

Die IRB 6700-Roboterfamilie ist die 7. Generation von gro en ABB-Robotern und wurde auf Basis von 40 Jahren Erfahrung mit Gro robotern entwickelt.

[IRB 6400R - ABB Ltd](#)

IRB 6400R - variant flexibility IRB6400 mechanics are adaptable in payload, performance or reach Can carry 120kg at higher performance or 150kg at less performance simply by the selection of software parameters. IRB6400-150kg can be modified easily to carry 200kg by exchanging the wrist so that it can quickly adapt to changes of the application.

Hi. Does anyone of you have the software program Robotstudio 4.0? I am programming an IRB 6400-2.4-150. Thanks in advance, Wim

[Product Specification - ABB Group](#)

Product Specification IRB 6400R M2000 3 1 Description 1.1 Structure IRB 6400R is a 6-axis industrial robot, designed specifically for manufacturing industries that use flexible robot-based automation. The robot has an open structure that is specially adapted for flexible use, and can communicate extensively with external systems.

The IRB 1400 S4C is a favorite for factory floors in need of an arc welder, material handling, and process applications. With a handling capacity of 5 kg and a supplementary load on the upper arm that can handle 18 kg, combined with speed and accuracy allowing for high performance operations.

[ABB IRB 6620 Industrial Robot from Global Robots](#)

The 6600 is the successor to the IRB 6400 range, although the 6400RF is still being produced in small numbers. The 6600 is used in many car factories around the world and has a good reputation for being fast, strong and flexible. The arm design gives the IRB 6600 a very big reach while keeping the arm compact. The arm can also flip over backwards.
