#### Diagnosis and management of osteoporosis in the older senior

The prevalence of osteoporosis is high in the older senior; however, many do not realize they have the disease. According to NHANES data from 1988 to 1994, only 1.3% and 1.6% of men and 12.1% and 9.7% of women age 75 to 84 years and 85 years and older, respectively, reported they had osteoporosis. 42 However when tested, 6.4% and 13.7% of men and 32.5% and 50.5% of women, respectively, had the disease.

#### Does osteoporosis predispose falls? a study on obstacle

...

The aim of the study was to investigate whether obstacle avoidance ability was affected in persons with osteoporosis compared to a comparison group of a community sample of older adults.

#### Osteoporotic fractures in older adults - PubMed Central (PMC)

Ray N, Chan J, Thamer M, Melton L. Medical expenditures for the treatment of osteoporotic fractures in the United States in 1995: report from the National Osteoporosis Foundation. Journal of Bone and Mineral Research.

#### Osteoporosis in Older Persons von Gustavo Duque | ISBN 978 ...

Osteoporosis in Older Persons von Gustavo Duque, Douglas P. Kiel (ISBN 978-3-319-25974-1) bestellen. Schnelle Lieferung, auch auf Rechnung - lehmanns.de

#### Osteoporosis screening and risk management

Osteoporosis is common among older adults and results in costly osteoporotic fractures. Screening for this metabolic bone disorder is warranted in most older adults and clinicians must be diligent in identifying persons at risk.

#### Balance control in elderly people with osteoporosis ...

Osteoporosis is a prevalent health concern among older adults and is associated with an increased risk of falls that incur fracture, injury, or mortality.

#### What Causes Osteoporosis? And Why? - WebMD

Bone loss accelerates after menopause, when older women have a quick drop in estrogen. Over time, the risk of osteoporosis and fracture increases as older women lose more bone than they replace.
