Amazon.com: Customer reviews: Psychology, Fifth Edition

"I admit, I love psychology, so I suspected I'd like the book." But still I was amazed at how good this text was. It goes into a decent amount of depth (including related structures of the brain and neurotransmitters/receptors), as well as touching on important people in Psych without dwelling overly much.

Psychology - Wikipedia

Psychology is the science of behavior and mind, including conscious and unconscious phenomena, as well as feeling and thought. It is an academic discipline of immense scope and diverse interests that, when taken together, seek an understanding of the emergent properties of brains, and all the variety of epiphenomena they manifest.
